#### **Product description**

PLUS wash basin brackets are available in electrically, pneumatically and manually height adjustable versions.

They are suitable for wall-mounting or for fitting to Pressalit PLUS wall tracks.

PLUS wash basin bracket, wall-mounted.

Electrically height adjustable 300 mm with wired hand control.

Recommendation: flexible feed/waste system R2065/R2067 (UK markets

R2071/R2075).

Incl. fixing bolts for wash basin (Recommended with MATRIX SMALL and MATRIX

CURVE/NEW CURVE wash basins). Materials: Aluminium and ABS polymer.

Excl. mounting kit.

### Adjustability

Height adjustable

#### Adjustment height

300 mm

#### **Product capacity**

Maximum load: 100 kg.

Suitable for wash basins weighing no more than 22 kg.

When the wash basin is loaded with 100 kg, each wall fastener will be carrying 42 kg. Wash basin brackets need to be able to carry the weight of the wash basin, as well as support the weight of the person who is leaning against the wash basin or who is using the wash basin to rise from seated position.

**Neither wash basin nor wash basin bracket are intended to carry the full body weight of a person**, and the test methods applicable to wash basin brackets reflect this: ISO 17966 prescribes a static test on the front edge of the wash basin at 75% of maximum user weight, i.e. when the maximum load on a wash basin bracket is given as 100 kg and the wash basin weighs 22 kg, it is — according to ISO 17966 — the equivalent of a user weighing 104 kg leaning on the front edge of the wash basin.

# PRESSALIT®

Product	PLUS wash basin bracket with wired hand control, electrically height adjustable	
Item number	R4751	
Speed	Speed up mm: 20 mm/s Speed down mm: 23 mm/s	
Noise level	45 dB	
Materials	The wash basin bracket is primarily made of 10-micrometre anodized aluminium. The ends of the bracket cover are capped with ABS polymer. The bracket is available with a wired hand control encased in polypropylene.	
Ergonomy	The height of the wash basin is easily adjusted by means of the wired hand control. The wash basin bracket suits all types of bolt-mounted wash basin. Its rounded, sleek design greatly facilitates cleaning.	
Features	An independant user will be able to make the necessary adjustments to an electrically operated wash basin bracket themselves without any problems.	
Mains connection (V)	230	
Actuator (motor)	LA40 (Linak) 4000N, IPX6	
Control box	SMPS14002	
Wired remote control	HB3 (Linak) IPX6	
Power consumption (maximum load)	Power consumption by maximum load, watt: 75 W Power consumption by standby: 1,5 W	
Warranty	Pressalit makes a commitment to remedy material and manufacturing defects for a period of five years from the invoicing date.

Item number	R4751
Cleaning	PLUS & SELECT wash basin brackets. The product is to be cleaned with hot water or a mild soapy cleaning agent. Do not use chlorine based, corrosive or abrasive cleaners as it may result in the surface being damaged.  The following cleaning agents have been tested by Pressalit and may be used, as long as they are diluted according to the instructions on the container.  DISINFECTANTS: Clinimax Difficil-S Erisan OXY+
	NON-DISINFECTANTS: Suma Star free D1 Taski 100 Taski 200  The product must be wiped down with a soft rag wrung out in clear water immediately
	after cleaning, as some materials may otherwise be discolored and stained, and the surface coating may deteriorate.
	DECALCIFICATION OF ALUMINUM PARTS: Pressalit recommends that chalky deposits be removed from wall tracks and other aluminum parts using a solution of three parts 30% acetic acid to seven parts tap water. When the aluminum parts have been washed down with this solution, the parts must be wiped over with a damp cloth wrung out in clear water.
Declaration of conformity	This product is in compliance with all relevant requirements of regulation (EU) 2017/745 on medical devices. It also complies with all relevant requirements in the Council Directive 2006/42/EC (of 17 May 2006) on machinery and the Council Directive 2011/65/EC on RoHS.
