## Description

---

The AKW heavy duty plastic fluted grab rail 1067mm blue. Constructed from high quality uPVC and an aluminium tubular core providing the grab rail with strength and durability alongside 5 fixing points for additional strength and stability. The 38mm rail to wall clearance provides an easier grasp for users with limited dexterity.

### Key benefits:

- Fluted rail ensures additional grip when hands are wet
- Easy grasp for users with limited dexterity
- Captive flange covers improve the overall finish
- 5 fixing points for added strength and stability
- Doc M compliant
- Matching AKW grabrails and accessories also available

### Technical details:

- Overall length (mm): 1067
- Rail diameter (mm): 32
- Rosette diameter (mm): 90
- Rail to wall clearance (mm): 38
- Concealed fixings
- Maximum load of 190kg / 30 stone this refers to grabrail only
- Colour: RAL 5005

### Please note:

- Fixings are not included and the installer should select the correct fixing based on wall type
